GENERAL HANCOCK wishes it to be understood that he has no grief on his own account. Notjody has. The Democratic managers who nominated him run him on their own account, not his. All they are grieved about is the defeat of their plans to use him, and abuse him.

1t is said by Treasury officials that Sectorally Sherman, in his annual report, will related the state of t GENERAL HANCOCK wishes it to be un-

of here. Five miles from Colorado
Springs is Manitou, famed for its mineral
waters, and a great summer resort for
health and pleasure seekers. Near by is
some of the most beautiful mountain
scenery in the country, and over all
towers the majestic summit of Piko's
Peak, where is located a United States
signal service station. Chills and
fever are something we never hear
talk of out here. The land is higher and
somewhat slanting, consequently no water
is permitted to remain standing. The
climate does not seem to agree with persons effected with heart disease quite so
well as some of our easiern States. Denver is situated at the junction of Cherry
creek with the Platte river, and is mainly
built on ground sloping toward the mountains. The line of vision takes in the
"snowy range" and is outlying foot hills
for 150 miles, forming a land-cape the eye
can never grow weary of. The streets are
broad and adorned with massive blocks
and elegant residences, they are quite level,
hear utility decorated with trees and have recommend as to the allver dollar that the 4124 grain dollar be recoined into a dollar of 325 grains. Secretary Sherman is said to be apprehensive lest the metallic base of the country shall consist chiefly of silver, which Treasury people say will be the case by 1882, if coinage continues, and the diminution of gold receipts from customs sources also continues.

Gov. Jewell's Committee had the result in New York City figured down pretty closely before the election. Jewell said that Garfield would receive 80,000 votes to 120,000 for Hancock, and if the latter over run that figure so would the former. The actual poll was:

The first group large to the Pritaburgh and the Eastern papers of Saturday report a firmer tone in the iron market. Buyers are taking hold pretty freely at Pittsburgh at current quo tations for pig metal. The New York Bulktin, of Saturday, alludes to the better feeling as follows:

"Consumers who have been withholding orders pending the result of the Presidential election are now showing more willing mas to buy American pig. and prices may fairly be quoted about \$1 per ton higher, with sellers very firm; it does not appear, however, that any turther materiel advance is reckoned upon, and in the abence of a great deal in the way of purely speculative operations, consumers.

Revival of sailroad Building.

Money is becoming daily more abundant, desirable securities are advancing, a real estate boom is coming, and a new era of railroad building is upon us. As regards the far West, never before was railroad building more active than at present, nor were there ever more signatic schemes projected. Railroads involving the outlay of immense sums of money are now being constructed or are soon to be commenced, and the result will be closer trade relations with Mexico and the developrelations with Mexico and the develop- made further purchases. ment of the resources of New Mexico, reaction, pork going from \$14 to \$9.25 in Arizona and Texas, and, indeed, of the spice of all that could be done to bolster it. Arizona and Texas, and, indeed, of the whole South and Southwest. That simost unknown country, Mexico, will be thrown open to the investment of American capital, and the hidden treasures of its mines will be brought to light to swell the vast amount of wealth in our country accumulated by American energy and enterprise.

To accomplish these purposes the railroad kings are pushing their respective lines along the border States and Territories, and through Mexico in various directions.

The Southern Pacific railroad is now 1,100 miles from San Francisco, having crossed Arizona, and is now speeding its way across New Mexico towards El Paso, Texas. The Weizel Issumerat Regrett.

We suggested to McEldowney, of the Weizel Democrat, that he would be obliged to bring an excuse along in his pocket, after the election. But he is in no state of mind for excuses. The poor man is incomolable. He declares that this is not only a nation with a big N, but "it is run by the nigger with two Gs." He also says that "this country belongs to the North," that "the South is but an Island;" that "cle Grant is in command," "if at the nation glories in ber shame;" that "the sooner Grant comes and claims his own, the better for the prace of the country;" that if Colonel Ben is beaten "no man who contributed the isle that a proper to the Colored Ben is beaten "no man who contributed the interest of the "black" of the Chicago "bulls."

THE RED SHIEVEN POLITICS. Ben is beaten "no man who contributed to his defeat, or sided either actively or insclively in endangering his election, will How South Carolina's Vote was Secured be allowed to take his place;" that he "everlastingly hates the Republican pa-ty;" that the country might as well commence shouting "Vive l' Empereur;" to the only kind of State sovereignty ed the privilege of voting. Mr. William Mahone sent a dispatch to Democratic headquarters here to-night stating that he would not go into the Democratic caucus. This was an official corroboration of the published statement to the same effect. It is believed, howto the same effect. It is believed, however, that he will generally act with the Democrate. His refusal to co-operate with that party altogether is easily accounted for. The strong and successful fight made by the Conservatives against his followers has left with him no kindest feelings for the Democrats. Indeed, many Republicans already claim that he will come over entirely to them in revenge, and that the refusal which he telegraphed; last night is but \$\$the first of the cutting loose programme he is about to carry out.

The Chinese Exedusting to China in Large Numbers.

SAN FRANCISCO, November 5 .- Nearly 600 Chinese left by steamer yesterday for China amid a scene of great confusion and excitement. This exodus seems the be ginning of an extended hegirs of Mongo lians from America. Most of those de-parting intend to remain in Ohina. This is variously accounted for, some believing that extensive public improvements are being inaugurated in the Celestial Empire, and that the authorities desire Ohinese who have gained experience in these matters in this country. Others think the unfriendly attitude of the American people is driving the Chinese away. Whatever the cause, there is general rejoicing over the exodus.

Bainbeidor, Ga., June 11, 1870: "Dr. Tutt: Dear friend—You know the cause of my bad health. I had concluded that there was no remedy that would relieve me until I used the pills you sent me. They proved to be the very thing I needed. I am under leating obligations to you for the blessing you have conferred en me and mankind generally.
